PROFILE

Aspiring Software Engineer with hands-on experience in building tools and services. Proficient in full-stack development, API design, and cloud deployment. Skilled in Go, Python, JavaScript, and Node.js, with expertise in MySQL, MongoDB, Git, and CI/CD pipelines. Passionate about solving problems, collaborating across teams, and delivering scalable, business-aligned solutions. Quick to learn and adapt to new technologies and best practices.

EDUCATION

Bachelor of Technology in Computer Science and Engineering 12/2021 – 07/2025
Annasaheb Dange College of Engineering and Technology Ashta, India
CPI - 8.31

Higher Secondary School 06/2020 – 08/2021
Sangli Highschool and Junior College, Sangli
Percentage - 89.83

PROJECTS

- LMS E-Learning Platform** 10/2024 – 12/2024
Developed a full-stack e-learning platform tailored for instructors and learners, offering a seamless experience with the following features:
 - **Secure user authentication** and **profile management**.
 - **Course management** for instructors (create, delete, publish).
 - **Search and filter** functionality for courses.
 - Stripe integration **for secure payment and content access**.
 - State management using Redux for seamless user experience.
 - **Technologies Used:** MERN Stack (MongoDB, Express.js, React.js, Node.js), Redux, Stripe API, Tailwind CSS
- AI Mock Interview** 02/2024 – 03/2024
Developed an AI-powered platform to simulate mock interviews, featuring:
 - **Secure login using Clerk Authentication**.
 - Customizable interviews powered by Google Gemini AI.
 - **Text-to-Speech feedback for response analysis**.
 - Real-time progress tracking with Firebase.
 - Responsive UI using ReactJS, TypeScript, and Shadcn UI.
 - **Technologies Used:** React.js, TypeScript, Shadcn UI, Clerk, Google Gemini AI, Firebase
- Real-Time Code Editor** 03/2023 – 07/2023
Developed a collaborative code editor enabling real-time synchronization for multiple users, with the following features:
 - Real-Time Collaboration: Enabled multi-user editing with instant sync using Socket.io.
 - Full-Stack Development: Used React for the frontend and Node.js with Express.js for the backend.
 - Deployment: Deployed the application on Heroku for free hosting.
 - **Technologies Used:** React.js, Node.js, Express.js, Socket.io, Heroku

INTERNSHIPS

AI-ML Virtual Internship (AICTE) 01/2025 – 03/2025

AI-ML with Data Science Internship (Ybi Foundation) 12/2024 – 01/2025

Machine Learning Internship (Suven Consultants and Technology Pvt. Ltd.) 11/2023 – 12/2023

SKILLS

Programming Languages : Proficient in C++, C, Python, and Java for software development and algorithm implementation.

Web Development: HTML, CSS, JavaScript, React.js, Node.js, Express.js , RESTful API development.

Database Management and Version Control : MongoDB, SQL, Git, GitHub.

Soft Skills : Analytical Problem Solving, Team Collaboration, Effective Communication, Time Management.

CERTIFICATES

- JAVA Programming (Udemy)
- Complete Python Bootcamp (Udemy)
- C++ Programming : Beginners to Advanced for Developers (Udemy)
- Infosys (Springboard) : HTML5,CSS3,JavaScript
